Working Smart with Microsoft Excel

Course duration: 1 Day

Who is it for?

This course has been specifically designed for Managers and senior staff who need to be confident in producing effective information in Excel. This course enables you to get up and running quickly utilising the features and benefits of the Excel application.

What is the course about?

Why should your Business use spreadsheets and what are the benefits of Excel?

Course overview

- An introduction to spreadsheets – formulas and functions, what are they and how do they work?
- How to utilise the Excel toolbox - To achieve professional information with the Excel resources on your desk.
- Custom design relevant information, for your Business using the Excel's flexible tools.
- Automate mundane, routine labour intensive tasks to decrease the possibility of error.

Increase profits through improved information, utilise business features such as -:

- **Scenarios** – create different sets of data and view the multiple outcomes based on different assumptions.
- **What if** – find specific optimum values of particular cells by changing values with ease
- **Data tables** - Excel can be used as an inexpensive database for finding, sorting & subtotalling available data.
- **Pivot Tables** – An interactive worksheet table that can be used to summarise & analyse information from an existing list or table, how to update a pivot table whenever changes in data occur in the original source.

- **VBA/Macros** – automation of tasks for better use of work time

Track work progress – eg; team goals (sales & productivity) how to create a customised worksheet with ease.

How to use professionally created Business templates and wizards so you don't have to recreate the wheel saving valuable time.

What do I get out of it?

Understand how you can use Excel in your Business

How to calculate and analyse information and take action

The skills to make effective decisions supported by accurate excel data.

How to work with professionally created wizards and templates.
